Professional Profile

Innovative IT Leader | Open Source | Cloud Computing | AI | Virtualization | HPC | Blockchain

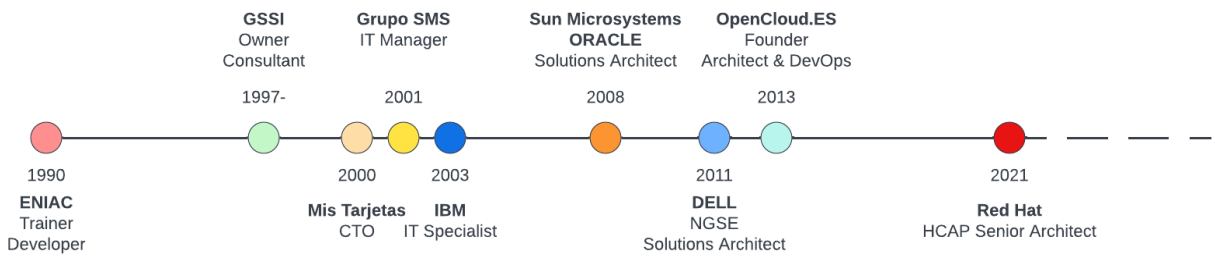
Strategic and results-driven IT professional with extensive experience in Open Source, Virtualization, HPC, Blockchain, AI, and Cloud Computing solutions. Specialized in OpenStack, Process Automation, Data Centers, Big Data, DevOps, Artificial Intelligence (AI), and Machine Learning, I bring a strong blend of technical expertise and business acumen to drive digital transformation and operational efficiency.

With a proven track record in pre-sales, solution architecture, project management, and team leadership, I have successfully designed and deployed high-performance computing (HPC), AI, and cloud environments for large-scale enterprises. My experience spans EMEA and LATAM, leading international projects and building high-performing technical teams from the ground up.

Key Strengths:
✅ AI & Machine Learning – Designing and implementing AI-driven solutions for automation, predictive analytics, and business intelligence.
✅ HPC & Cloud Computing – Deploying scalable, high-performance cloud and Open Source environments.
✅ Virtualization & DevOps – Expertise in VMware, KVM, Xen, OpenStack, Kubernetes, and Infrastructure as Code.
✅ Blockchain & Smart Contracts – Implementing secure, decentralized solutions for enterprise applications.
✅ IT Strategy & Transformation – Driving digital innovation, process automation, and business continuity.
✅ Team & Project Leadership – Proven ability to build and lead technical teams for mission-critical projects.

Currently open to leadership roles, where I can contribute to cutting-edge IT initiatives in cloud computing, AI, and blockchain.

Profesional track



Education

4º Ciencias Geológicas - Facultad de Geología - Universidad de Oviedo
2º Ingeniería Informática de Sistemas – UNED

Languages

Spanish: Native **English:** Fluent **French, Italian, Portuguese:** Reading

Roles and Targets

2021- Red Hat - EMEA Principal Specialist Sol. Arch. Hybrid Cloud Adoption Team

As Principal SSA in the Red Hat's HCAP: focus on pushing the OpenStack(OSP), OpenShift(OCP) and Ansible adoption, designing, leading, and delivering workshops to customers to ensure customer value from the platforms. Designing frameworks, solutions, and agile responses, identifying new business opportunities, and supporting sales and delivery teams. Hyperscalers hybridization (AWS, Azure, GCP): Governance models definition, architecture design, migration from legacy env. to hybrid cloud env. Application transformation and cloud maturity models compliance. Infra launch team lead. (OSP, OCP, OCP-v, ODF, ACM, ACS, AAP, OCP AI). Acting as engagement lead and lead Architect on many customer projects, leading teams and ensuring commitment, success, compliance and best practices alignment. Working on infra (storage, compute, and network) design, observality, DR, security, and service mesh,

- Projects and engagements:
  - Core42 – UAE Public/Private Sovereign Cloud platform – OCP(K8s) & RHOSO 18 (OpenStack), Ansible, IDM,etc… Connected, restricted and Airgaped env. Azure, AWS & GCP hybridization. Team leading (engineers + developers + Ops, Sec.). Cloud platforms (Dev / Test / Integration / Sandbox / Connected / Restrictedx3 / Private / Private Test). Observability arch. design, Backup, HA&DR, Foundational services arch. definition (+100 developers). GPU integration (nVidia H200).
  - Yorizon: K8s + OpenStack + Ceph deployment. 2 DCs (Munich & Vienna), observability stack and networking arch. design and support on the deployment phase.
  - SAP – EIC deployment into OCP. Arch. reference definition. Leading the proposal, and support SAP consulting to deliver PoV to customers.
  - BIS: RH OSP & OCP Hybrid cloud platform. OnPrem – Azure (ARO) – Oracle Cloud -. Ansible Automation Platform – Design and support. Application modernization and transformation. Leading 5 FTE – Observability solution design. (10 FTE Team Lead)
  - Emirates – OCP deployment base on VmWare virtual Hw, - ABI and Ansible Automation Platform arch. Design and deployment support.
  - Deutsche Bank: OSP & OCP Baremetal & AAP PoC – VmWare OCP Poc. Testing OCP-V capabilities vs OCP on top of Vmware Cloud Foundation.
  - Eurocontrol – Application modernization / Transformation. Integration Lead Architect.(Leading a team of 60 FTE). Migration of legacy app to OCP (microservices) and Azure. OCI integration for Oracle DB support. Observability platform integration and validation. DPLT & NDC.
  - Junta de Andalucia: Tanzu to OCP4 Migration. Hybridization with AWS. Design and support the migration and the hybridization. Paying attention to the comms, security and stability of the services. (15 FTE team). On-prem hybridization with VCF. DR & Observability arch. design
  - Danske Bank: OCP 4 workload migration from customer's DC to AWS self-managed OCP. Governance model (IAM), Connectivity btw on-prem and AWS design (Direct Connect), architecture design (EC2, S3, RDS, ALB, observability, DRetc.). (5 FTE team)
  - Fod Financiën: Tanzu to OCP4 Migration. (5 FTE team) on top of VmWare virtual hardware (VCF)

- Volvo: OCP adoption. Hybridization between AWS and on-prem DC.
- Telefonica: Ansible Automation Journey and hybrid multi cluster platform integration (AWS, Azure, GCP). RH OSP & OCP Hybrid cloud platform.
- ARAMCO: DevOps Model definition – Ansible & OCP – CNF Maturity Model. Multicluster observability arch design. Applications transformation journey,
- Emirates: Disaster recovery procedures to ensure RTO/RPO below 1 hour. Review Architecture design, RHACM and OCP-v adoption.
- Deustche Bank: OSP & OCP-v PoV design. Vmware to OCP-v migration. Observability and DR arch. design. HLD & LLD
- Zain, Nutanyx, SBSA, SBA, FOD, COVEA, and many other customers.
- Telco vertical: Orange, Vodafone, etc… RH OSP migration & NFVi migrations. OSP HLD & LLD.

- Framework design
  - Preliminary Technical Assessment, Adoption Snapshot, Adoption Profiling, and Discovery Workshop framework design
  - Agile Responses definition
  - Modular approach to deliveries
  - OCP and Ansible CoE definition. Hyperscalers (AWS, Azure, GCP) integration
  - AWS/Azure/GCP Hybrid Architecture

2013-2021 OpenCloud.ES - WW Owner, Lead Architect, CTO IT Services

OpenSource consulting services, focused on cost efficiency and Virtualization, Cloud Computing and HPCC environments.

- Design Deployment (HLD & LLD) & Support of Hybrid Cloud environments: OpenStack (KVM/VmWare/HyperV) + AWS / Azure / Google Cloud
- Project management methodology definition and technical team trainings.
- Speaker @ Big Data Europe Conference 2015. OpenPower, OpenStack & BigData.
- Last projects:
  - JTI – VmWare Cloud Foundation Senior Architect – Design and support legacy apps migration.
  - QDQ Media: CTO. GCP, K8s, Jenkins, GKE, DWH, CRM, ERP, Software dev. Team size: 35 FTE. OCI
  - Prosegur: Senior Architect – Cloud gov. model definition. (GCP & Azure) – GKE, AKS, Azure DevOps, Terraform. Mongo Atlas. Mulesoft Run Time Fabric. OCI Governance.
  - Blockchain Projects CTO: Legendaryum (Metaverse – 10 FTE), Lanister Finance (Token), Moonkey (NFT launchad), Epycaz (25 FTE)
  - Mango: Senior Cloud Architect. EKS, GKE, K8s, Rancher, Ansible, Terraform, RDS (MySQL, PostgreSQL), Mongo Atlas. Team Lead (AWS & GCP) –MAAS & Juju. Mulesoft Run Time Fabric. Airflow. Big Data. (10 FTE)
  - SafariCom: OpenStack + OpenShift sol. Architect. Design & team leading. Kenia
  - Vodafone: OpenStack + OpenShift sol. Architect. Design & team leading. Egypt
  - VISMA: OpenStack + Ceph + OpenShift assessment. Identify issues & provide a production ready env. Norway
  - VICA-DDP: DevOps. Troubleshooting & tuning GKE deployment K8s, NodeJs, Meteor, MongoDB.
  - Sfera: K8s on-premises deployment (OCP3). NodeJs, Mysql, RabbitMQ, MongoDB. Fine Tuning. OCI – Oracle DB.
  - SurfNet: NFVi env. based in OpenStack Train charmed. VPP charm developed & deployed
  - Catrian: Openstack & Solaris Lvl 3 support.
  - CGM: OS Ansible env. New Ansible roles development – Masakari, Barbican, Octavia, etc...
  - Vodafone-Ziggo: RHOS 10-13 / RedHat Ceph Storage 2.x-3. / RedHat OpenShift Several RHOS & RHCS for NFVi using DPDK &SRVIO. Design, deployment & support. Cloud Automation & DevOps sol. Arch. based on CloudFoundry - Amsterdam/Mastricht
  - CDMON: OpenStack & Ceph (Nautilus) deployment & support based on Canonical.
  - VWG: OEM-IL OpenStack & MlaaS deployment. DevOps & K8s Solutions Architect. OpenStack & AWS (Europe) & Azure (China). K8s, Ansible & Terraform. CI/CD, DevOps. MongoDB, Istio, Fluentd, Jaeger. AWS, Azure.
  - Universidad de Cuenca: OpenStack Design, Deployment & Support Cuenca-Ecuador. Supermicro
  - TIM: RH OS 10 NFVi on field deployment – NFVi deployment on Tarento– RH Ceph Storage 2.X/3.X (50Tb), OpenStack & OpenShift
  - Gestamp: Hybrid Cloud env. (AWS+S3 / OpenStack+Ceph) design & deployment. SDN & SDS sol. desing & deployment. Dell Servers + EMC Isilon
  - Wind3: DC & Migration Consolidation – Openstack Architecture design & Deployment, Ansible automation plan. Legacy 2 Containers & other DevOps tasks. Security tasks. Ceph SDS (500Tb). Monitoring solution desing & deployment. OpenShift support... Huawei servers & storage (Ocean Store)
  - TIM: RH OS 10 POC – Huawei test hw. POC – RH Ceph Storage 2.X (50Tb) & OpenStack.
  - DT: Amazon ECS-EKS solutions Architect. Advisor, design & deployment. Huawei Servers.
  - OpenBChain – Biotech app supported by AI (tensorflow) & a hybrid blockchain network. SuperMicro
  - Carrefour: AWS + Legacy. Design & Deploy: Migration & transformation services to deliver in Amazon. Monitoring environment SLA based. CloudFoundry & OpenShift POC & Cloud Foundry Delivery (ELK., Graphana, Kibana, Zabix, etc..)
  - VolksWagen AG – OpenStack & Ceph – Zero Touch provisioning env. By Mirantis OpenStack support & advisory consultant. Huawei, HP & Fujitsu servers. Observability platform. (ELK, Graphana, Prometheus, Istio)
  - Huawei – R&D – Cloud Solutions Architect for service transformation. Focus on OpenSource customers' DC Migration & transformation services. OpenStack, K8S & Docker env.
  - TodoenCloud – Ceph SDS (90Tb)
  - INDRA: ATM Cloud environment (Canonical) - OpenStack Newton + Ceph (150Tb) HP servers
  - UCS: CEPH SDS (40 Tb) solution: design & deploy. Nagios Services. Redmine: Develop & support & Asset Management: OCS Inventory + GLPI: deploy & support.
  - Univerdidad Autonoma Madrid: Deployment & tuning of a Dell HPC environment.
  - BIFI-Unizar: OpenStack & Ceph (150 Tb) deployment & Support
  - Metro Madrid: (2014-2015): Supporting RHEL, CentOS and Debian environments. oVirt. GlusterFS, MySQL, Nagios.
  - ONO: Plan, Deploy and Support: OpenStack Public Cloud Based for enterprise customer. Ceph SDS (2014)

- GISS: OpenStack POC + Ceph SDS (20Tb) (2014)
- Universidad de Valencia: OpenStack POC (2014) + Ceph Deployment (40Tb) (2016)
- UNEN: Support and design opensource based services. AWS + S3 migration services. (2014-2015)
- Jazztel: Business Continuity – Plan, Design & Deployment of BCM for Jazztel for Oracle VM, Linux (RHEL, OEL),HP-UX and Oracle DB environments (2014-2015)
- Another customer: Policia Nacional + Symantec: Junta de Andalucia, KIO Networks, INE, SoyTic, Netllar, Nextrend, etc...

- Delivery of several trainings
- Involved in the VW's Private Cloud environment design, and support (Wolfsburg & Mlada Boleslav DC), supervising Mirantis' tasks and involved in task force to solve issues related with CloudFoundry, networking issues & SDS solution performance. (Ceph based) Tasks automation (python, perl, Ansible, etc.).
- Leading these Research topics: Zero touch provisioning environment,SDN definition (design & deployment). Legacy App. Migration to Docker environments. Monitoring tools for cloud env. Defining & designing a solution to provide proactive monitoring using opensource components. MlaaS. OEM-IL MlaaS – K8S & DevOps Architect. Fluentd Integration with OEMIL app, Rolian POC, Ansible & Terraform tech. Lead, Jaeger design & deployment. Legacy applications migration/transformation.

2011-2013 DELL Computer - Madrid NGCS DSE Arch. HW Vendor

As Next Generation Computing Solutions Systems Engineer for LE, Public & CSMB: focussed on Virtualization, HPC (VMware, Xen, KVM, OVM, etc.), and Cloud Computing solutions (OpenStack, VIS, System Center, VmWare, Big Data suite (Hadoop, Hive, Pig, etc..)).

- Go to Market definition. Design & presales solutions. Developing business around new solutions.
- Collaboration with channel team to develop proposals & business needs definition.
- Bronze Award: launching & leading of Spanish hosters vertical. 1stQ 1M €.
- Issues support @ UAM HPCC, DELL rise as Universities HPCC solutions provider.
- Pipeline control and manage (70M€/yr). Market share improvement: +4%.

2009-2011 Oracle - Madrid DC Virt. Arch. SW Vendor

As DCV Architect: : focussed on Virtualization, HPC (VMware, Xen, KVM, OVM, etc.), and Cloud Computing solutions (OpenStack, VIS, System Center, VmWare) and MySQL environments.

- International presales activities.
- Training to EMEA Expertise Center: OEL, OVM & MySQL
- Technical lead to several OVM EMEA projects.

2008-2009 Sun Microsystems - Madrid DC Efficiency Arch. HW Vendor

As DCE Architect: focussed on Virtualization, HPC (VMware, Xen, KVM, OVM, etc.), and Cloud Computing solutions (OpenStack, VIS, System Center, VmWare) Go to market definition.

- Customers: AENA, R-Cable- Producban, Vodafone, Telefonica, etc…

2003-2008 IBM - Madrid IT Specialist IT Services

Linux, Virtualization, BBDD & Solaris Pool coordination. Teamwork with EBH pool de EBH to develop http, open source tools and app. Servers. Linux admin over xSeries, pSeries, zSeries, etc. Virtualization over VMware ESX Server, Z-VM, AIX y UML. Flavours supported: Debian, Red Hat EL, Suse Enterprise, Mandrake, Ubuntu Server, FreeBSD, etc. Leading Linux, DDBB, and Virtualizatio teams (100 FTE)

- Services transition from Spain to IDC (Argentina) (50 FTE team)
- Creation of Linux & Virtualization pools.
- Strategic projects: Mare Nostrum – BSC (HPCC), VDC, etc..
- Virtualization & OpenSource POC for Endesa: win 50M€ contract.
- Integration and service transtion @ France Telecom vertical: Ya.com merge.
- White hat @ EQUIFAX servers. Test intrusión, etc…
- SPGIT Technical Lead Team

2002-2003 Grupo SMS - Madrid IT Manager IT Services

Systems Responsible on customers projects, Reale, CIAC, PRISACOM, etc. Development group coordinator, focused on framework development environments. Corporate network design, Argentina-Venezuela-Brazil-USA- Spain.

PRISACOM: 06/2002-06/2003

TS Coordinator Pool: (16 personas) production, pre-production and development Prisacom platforms. Linux, Solaris and Windows 2000 Admin. App.: Mysql, PostgreSQL, Tomcat, Apache, IIS, Postfix, Weblogic, etc

2000-2002 MisTarjetas - Madrid CTO Insurance

- Technical team leading.
- Process definition

1997-2003 Gaia Systems - Oviedo Trainer, Developer Training

- 1st period… See previous description.

1990-1997 Eniac - Asturias Trainer, Developer Training

- Training, Developer & Sys. Admin

Technologies

Application transformation, OpenStack, Kubernetes, Microservices, Opemshift, RHOSO, OCP-AI, OCP-V, Multicloud GitOps, AWS, Azure, Google Cloud, DevOps tools (GIT, Jenkins, tc..), Elastic Search, Golang, Ansible, Puppet, ETC20, Hyper Leadger, DL & ML, Haddop & Big Data apps, HPC, Linux OS, Bacula, Amanda, HP-UX, AIX, Apache, oVirt, KVM, XEN, VmWare, HPC, Perl, Python, PHP, Shell Script, BrightStor EB & CA ARCserve B, HA, LB, Ceph, GlusterFS, SAMBA, PDC, Tomcat, Jboss, Redmine, OCS Inventory, OwnCloud, Pydio, OpenMPI, LinkPack, SugarCRM, Odoop, Claude Code, Openclaw, MCP, etc..

Certification

- Anthropic Claude Certifications: MCP Advanced Topics, Claude Code 101, AI Fluency Framework & Foundations, Claude Code in Action.
- Azure: AZ-900, AZ-104, AZ-305, AI-900, SC-900
- GCP Architect (in progress – learning path completed average 96% success)
- VSP & VTSP 5 – May’13
- CSSA - May'12
- VCP 4 Certified – Dec'09
- VCP 3 Certified – Sep'09
- VSP 4 & VTSP 4
- ITIL v.3 Foundation – Exim – Feb'08
- AIX 5.3 Certified - IBM – Dec'06

Other Trainings

- Introduction to CiberSecurity (EDU-010) PaloAlto Networks
- SUSE Cloud Advanced – May'15
- SUSE Manager Admin - April'15
- SonicWall CSSA – May’12
- System Center – Microsoft Milan– Dec’11
- VIS – Sep’11
- Oracle 11g, Permormance Tunning DBA – Oct’11
- Oracle Databse 10g y 11g Admin Workshp I & II – Jul-Sep’10
- RHCSP - Jan'10
- Vizioncore at the Center of virtualization - Magirus – 2009
- Technical & Presales Trainings about: Veeam, Riverbed, DataCore, PlateSpin, etc. – 2009
- Webinar RH. Enterprise Virtualization – 2009
- Sales University - Service Accreditations - Sun - 2009
- Participación en los Viernes Técnicos de OpenSolaris, de la comunidad OpenSolaris Hispano. - 2008
- Passion Workshop - Sun Microsystems – 2009
- Delivering consolidation and virtualization Services - London - Sun – 2008
- Information Protection - Sun – 2008
- Sales University - Service Fundamentals - Sun – 2008
- OpenSolaris Technical Fridays, OpenSolaris Hispano community. - 2008
- Linux Performance & Tuning Workshop - IBM 2008
- Teams Management - IBM 2007
- Negotiation and Conflict Resolution - IBM 2007
- HACMP Administration - IBM 2007
- Initial HACMP Installation and Configuration - IBM 2007
- Linux Virtualization on IBM BladeCenter - IBM2007
- JS21 y HS21 Management - IBM 2007
- Supporting Enterprise Linux on Power 5 / 6 - IBM 2006-2007
- Problem Solving and Decision Making in Groups - IBM 2007
- Project Management Fundamentals y Orientation - IBM 2006
- P5 & pSeries admin. Support - IBM 2006
- Oracle 9i Database Admin.: Manage an Instance - IBM 2006

Contribution & Publications

- Journal Publications - Programación Actual n. 59 & 60
- Docs translation on Linuxfocus.
- Calidad en entornos IT. Siten `98. Gijón. Asturias
- Cordinador del proyecto: Seguridad en las webs asturianas.
- Apache & PHPes project
- Desarrollo en varios proyectos GNU/GPL
- Desarrollo de X-Killer (Open Groupware).
- Linux Counter Manager.
- Zend Studio Beta tester
